

NEW: Advanced version **NATUREFORMER KFT 90**

With our advanced version of the KFT 90 machine, you benefit from numerous new features that will significantly increase your productivity.

- **Faster production:** Up to 30% reduction in cycle time due to improved steam management (Kiefel Steam Flow Technology)
- **Full control:** Maximum process reliability through new temperature controller
- **Easy to use:** Simplified machine operation due to optimized HMI
- **Zero losses:** Productive from the first cycle
- **Higher gain:** Optimized molding boosts the amount of good parts

Better than ever

**Increase your
productivity**

**Also available as
"ADVANCED UPGRADE"**
for your installed base
of the KFT 90

Technical Data

Max. forming area	900 x 600 mm
Pressing force	450 kN
Formed weight per cycle	300 g
Height of formed parts	More than 120 mm
Energy consumption	2,5 kWh/kg
Footprint	10.8 x 4.6 x 3.6 m
