TECHNOLOGIES

NATUREFORMER KFT Lab

Start up your fiber production

- Downscaled machine for R&D and production of samples made from fiber-based material.
- Easy-to-clean as well as simple operation and material composition change.
- Compact size, low infrastructure requirements and movable by forklift.
- Accessible from all sides.
- Rapid tool change with lightweight tools.
- Innovative Double-Dip Technology enables 100% fiber-based multilayer products with improved barrier properties.

Technical Data

	KFT Lab	KFT Lab + Double Dip
Max. forming area	300 x 200 mm	300 x 175 mm
Max. height of formed product	130 mm	130 mm
Pressing force	26 kN	26 kN
Cavities	single or multiple	single or multiple
Footprint	3.7 x 3.1 m	3.7 x 3.1 m
